## THE SPEAS MURDER CASE.

The Testimony Closed and the Argument by Counsel now in Progress.

All the evidence in the case of the state vs. Mary Speas, at Wellsburg, is now in, and the argument began last evening. The defense made a good showing for the prisoner, except in the cases of the defendant's neighbors. Their testimony was very similar, creating the impression that it was learned by heart. Every doctor in the town was on the stand, the defense getting the opinion of them all in regard to brain and nervous diseases.

Both Mr. and Mrs. Speas were also recalled and their testimony was directly contradictory.

The arguments were opened at 2 o'clock by Prosecuting Attorney R. H. Cotton. He called particular attention to the testimony of the attending physicians, Drs. Johnson and Walkinshaw. He claimed the child was always healthy, showing no evidence of disease or nervous disorders.

He reviewed at length the testimony of the defendant's neighbor, Mrs. Dougherty, in particular. The defense's claim that there were no deadly weapons used was met by references to other West Virginia murder cases in which the feet and hands were shown to be deadly weapons.

Dr. Harden was on the stand for the defense yesterday morning, and testified that it would be next to an impossibility for a six-year-old child to hurt itself in the manner Nora Starr was hurt, by falling off a chair.

The state recalled several of their witnesses, among them being Dr. Johnson.

The testimony adduced yesterday morning showed that the child Nora was always in a healthy condition before Mrs. Speas took the care of her.

Mr. John Palmer, for the defense, called particular attention to the fact that Dr. Johnson, when he first saw the child on November 30, thought it was in convulsions, and was only led to believe that foul play had been used when he saw the fractured skull. This fracture in the skull he claims was simply a defective ossification. He claimed that the bruises were "tropical spots," and that they existed only on the skin. The former good character of the accused, as testified to by her neighbors, was also dwelt upon.

## MOUNDSVILLE.

A Miscellaneous Melange of Minor Matters from Marshall's Metropolis.

The question of a new high school building for Moundsville is being agitated and our people are strongly in favor of the project. The fact is the old one is totally unfit for the purpose. It is a trap that may bring death to many children if something is not done. It is dark, poorly ventilated, ill-lighted, and too small for the demands made upon it.

Real estate men speaking of the matter, think that the old buildings and grounds could be sold for about \$14,000 and that a new site equally as eligible as the present one could be purchased for about \$4,000, leaving a surplus of about \$10,000 toward the new building. A fair rate of interest must be done.

Dr. J. H. Fryden, of Wheeling, will probably locate in Moundsville for a while, as he has been for unlawful detainer returned a verdict for the plaintiff. A new trial has been asked for.

It is pretty generally understood that the new city council elected last Thursday will be a unit.

## NOT CONSUMPTION.

The Symptoms in Miss Wheeler's Case Had Been Misunderstood and She Had Been Long Improperly Treated.

After Twenty-two Years of Suffering from Catarrhal Drain, Headache, Dizziness, Palpitation, Cough, Chest Pains, Dyspepsia, is Entirely Restored by Drs. Copeland, Bell and Davis.

Miss Ella Wheeler, No. 198 Seventeenth street, a "Philadelphia" dressmaker, furnished the following remarkable statement for publication in endorsement of Drs. Copeland, Bell & Davis's method of treatment:

"My trouble began twenty-two years ago," says Miss Wheeler, "with cough, cold, sneezing and feverish spells. I have taken a thorough treatment from fifteen of our city physicians and have swallowed a barrel of cod liver oil in the rounds of them all without benefit."

"Some of the doctors told me my trouble was hereditary and I would never get well of it, while others told me I might grow out of it, but everything I took did me no good. One doctor told me I had consumption and would never get well."

"Finally I read in one of the papers of a lady who had precisely the same symptoms as I had and I felt if she could get cured I could also. So I made up my mind to go and consult. Dr. Copeland, Bell and Davis were the first I visited. I made to their office I was so near dead and so very weak I had to stop at different places on my way to rest. I at once placed myself under their care. At that time my nose would stop up

MISS ELLA WHEELER, 180 SEVENTEENTH STREET.

and mucus continually dropping into my throat, causing me to cough. I had headaches, pain over my eyes, coughed almost night and day, raising a thick, tenacious mucus streaked with blood. My throat was so sore I could scarcely swallow. I was so short of breath when I would go upstairs I would have to sit down on the top step to rest. Pains all through my chest into my back so bad I would have to be propped up with pillows in the bed to keep from smothering to death—pains just like a knife running through my chest. Appetite lost, what little I did eat cramped and hurt in my stomach and caused so much misery I was almost afraid to eat. Almost anything I ate I would throw up. It would not lay on my stomach.

"I also had pains through my back and kidneys, so severe at times I could not lie in bed. Two years ago night sweats set in, and every article of clothing about me was just as wet as though they had been dipped in the river. I had chills every day, followed by burning fever and aching all over. My feet would swell so tight I could not wear my shoes. I had palpitation of the heart, and grew so weak and thin I was nothing but skin and bones. I was a mere skeleton. People would come in and tell my sister I would not live a week and I often prayed that I might die to get out of my misery. I now had dizziness in my head so bad I would often faint."

"I now weigh ten pounds more than I ever did in my life, am stout and hearty, can go to bed and sleep all night without waking, can eat anything at all, and it does not hurt my stomach, the pains are all gone, breath free and easy, can walk without the least fatigue or shortness of breath, have no night sweats or swelling of feet. If any person doubts this statement please call at my home, No. 198 Seventeenth street, and I shall gladly verify it. In fact, the half is not told here."

"I must say I owe my recovery to Drs. Copeland, Bell and Davis, and cannot say enough in this short space in praise of their splendid work."
